

DC  AVIATION GROUP

COMPANY PROFILE 2024

„Passion for quality” is what drives us. Our goal is to be a partner that you can rely on one hundred percent. This does not only involve the highest level of discreetness and personalised service, but above all the wonderful feeling of sitting in a perfectly maintained aircraft with an excellently trained crew. Achieving the highest standards in all safety-related areas is therefore at the heart of our corporate philosophy.

For us, it is also very important to inspire you. People who spend a lot of time in the air should see a flight with DC Aviation as the highlight of the day: an experience that they always look forward to enjoying time and again. This is what we at DC Aviation strive for every day.

With best wishes,

Marc Ambrosius, Managing Director
Svenja Wortmann, Managing Director
Stuart Burrows, Accountable Manager

AVIATION

DC AVIATION GROUP

PEAK OF COMPETENCE AND CULTURE

DC Aviation was formed out of DaimlerChrysler Aviation in 2007, a subsidiary of DaimlerChrysler AG founded in 1998. The origin of our company lays the foundation for the highest performance and safety standards across all areas of flight operations. We offer you comprehensive support from a single source.

DC Aviation runs one of the largest and most versatile business fleets in Europe. We cover the European region as well as the Middle East, India, Pakistan and Africa through our headquarters in Stuttgart and our locations in Dubai, Malta, Munich and Nice.

BUSINESS
ACTIVITIES

AIRCRAFT MANAGEMENT

YOUR INVESTMENT IN BEST HANDS

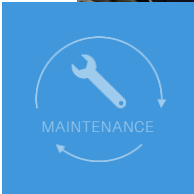

- More than 20 years of experience in keeping almost all types of aircraft
- Personal support from key account managers
- All-round inhouse services
- Optimum value retention of your plane/helicopter through our qualified maintenance operation
- Potential savings on insurance, jet fueling and crew deployment
- Maximum process transparency for management clients: Development of our own customer reporting tool (FIT) to provide real-time aircraft data
- Charter marketing upon request

EXECUTIVE CHARTER

FLEXIBILITY AND PERSONAL SERVICE

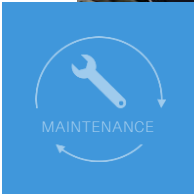

- Customized offers through individual advice
- Suitable aircraft and helicopters to meet every need thanks to large fleet variety
- Aircraft available within a few hours with your individual flight plan
- Service, on-board entertainment and catering to suit your very own wishes
- Highest safety, quality and hygiene standards
- Strictest selection criteria and ongoing training of flight personnel

AIRCRAFT MAINTENANCE

MAXIMUM VALUE RETENTION

- Line & base maintenance for 13 different aircraft types
- Own maintenance facilities with shops for battery & wheel maintenance
- Cabin & connectivity upgrade programs
- Maintenance and refurbishment of cabin equipment
- Warranty management
- Airworthiness continuation and certification
- Individual maintenance programs for your aircraft/helicopter
- Technical inspection and appraisal before purchase or sale of an aircraft
- Construction supervision, delivery and acceptance inspections of new aircraft

Pilatus Aircraft

AIRBUS

Gulfstream

FLIGHT SAFETY

HIGHEST
SAFETY AND
QUALITY
STANDARDS

FLIGHT SAFETY

DC AVIATION EXCEEDS LEGAL REQUIREMENTS

- Honored with the Diamond Award of Merit of the European Business Aviation Association (EBAA)
- Qualification of our cockpit personnel going far beyond the customary standards in the industry
- Fitting the aircraft with safety and rescue equipment exceeding the minimum legal requirements
- Telemedical assistance in critical situations by the company Med Con
- Regular training of cabin crews in accordance with EASA in the fields of rescue & safety, firefighting, security, crew resource management and first aid

HIGHEST SAFETY AND QUALITY STANDARDS

LEGAL REQUIREMENTS VS DCA REGULATIONS

TYPE OF TRAINING	LEGAL REQUIREMENTS
Selection of Pilots	None
Additional Training	Customary practice: once per year (aircraft)
Abnormal & All Weather Operations Check	Customary practice: twice per year (aircraft)
Theoretical Testing	Once per year
Authorization for more than one Type of Aircraft	Max. 2 Aircraft Types
CRM (Crew Resource Management)	Once every three years

DCA REQUIREMENTS

Independent 5-stage assessment center based on airline standards (theory and simulator)

Twice per year (each at least eight simulator hours)*

Twice per year (each at least four simulator hours)*

Twice per year

Categorically only one Aircraft Type

Once per year

* Despite the extra time and expense involved: In the simulator, unlike regular flight operations, critical situations can also be simulated and trained.

EVERYTHING AT A GLANCE

FIT – FLIGHT INFORMATION TOOL FULL TRANSPARENCY

Our Flight Information Tool (FIT) was developed in-house and gives you full access to real-time data on your aircraft, such as flight or maintenance events or the training status of the crew.

You can feel confident that your aircraft is being operated safely and cost-effective at all times.
